

Do you run CoCreate Modeling Personal Edition? Upgrade to the full version of CoCreate Modeling 2008!

Do you want to create unlimited numbers of parts and assemblies? Exchange data with other users and across applications? Use CoCreate Modeling without connecting to the internet?

Upgrade your CoCreate Modeling Personal Edition to the full version of CoCreate Modeling 2008. CoCreate Modeling is the world's #1 3D CAD system with an explicit modeling approach to 3D design. This lightweight and flexible approach is ideal if you create new designs from scratch, measure new design cycles in weeks or months, and don't benefit from up-front engineering constraints and relationships.

Now you can upgrade to CoCreate Modeling for a very special price!

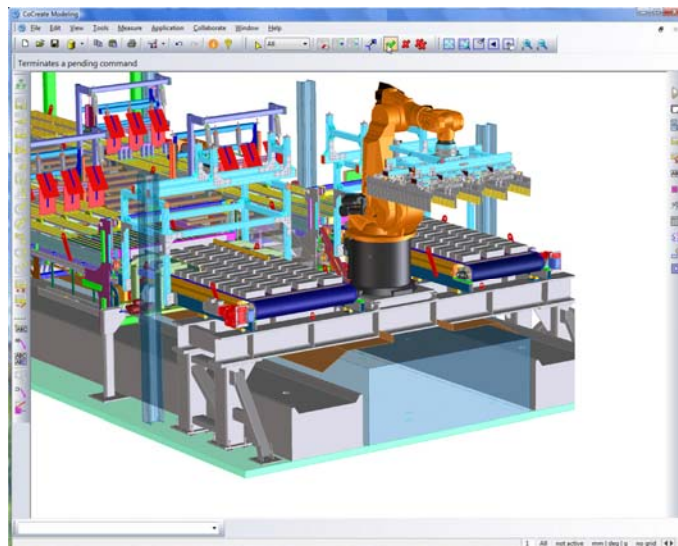

Use this offer to purchase the upgrade to CoCreate Modeling for just 990 Euro and one year's maintenance for 1,630 Euro. With this state-of-the-art software and maintenance, you can:

- Install a complete 3D CAD system, including CoCreate Drafting, CoCreate Modeling, freeform design, sheet metal, full assembly modeling and associative drawings.
- Take the explicit approach to creating parts and assemblies and enjoy lightweight and flexible product design.
- Design with unlimited numbers of parts and assemblies.
- Raise your productivity with additional features such as photo-realistic, high-resolution imaging, and data exchange options, including IGES, SAT, STEP and IDF.
- Run CoCreate Modeling on 32- and 64-bit versions of Windows Vista™ Ultimate, Business, and Enterprise.
- Run CoCreate Modeling without connecting to the internet.
- Rely on 24 x 5 Professional product support.
- Access software updates during the lifetime of your maintenance agreement.
