

Workaround for Attributes on development:

Settings to get Attributes on your development:

Adjust “Development_Textblock.ftd” to suit your needs (colours, Font etc.).

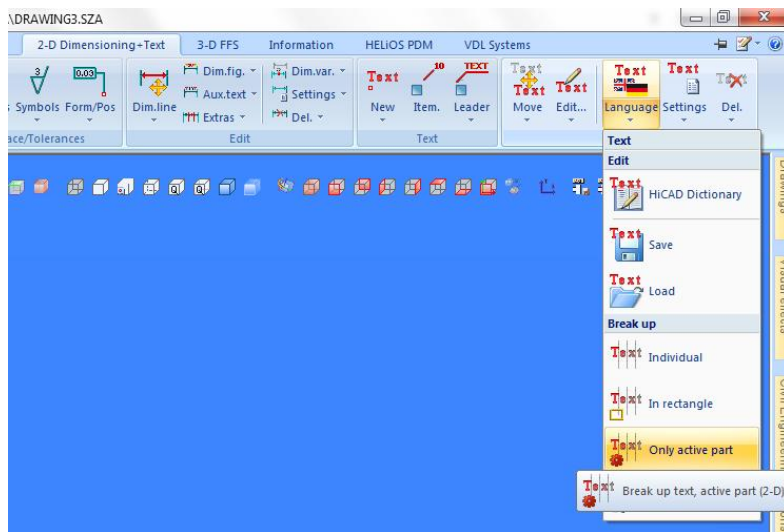

Normal structure of your development in the ICN:

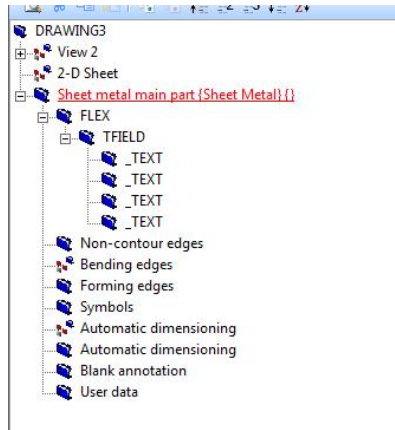

Activate the top level of your development in the ICN.

Next:

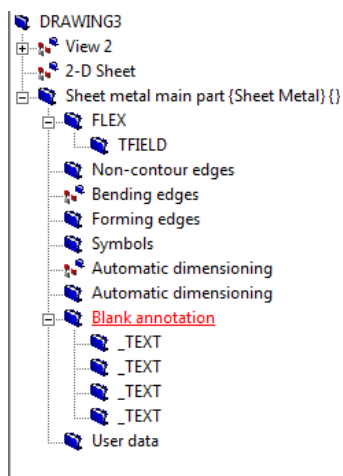

Break up text (active part only):

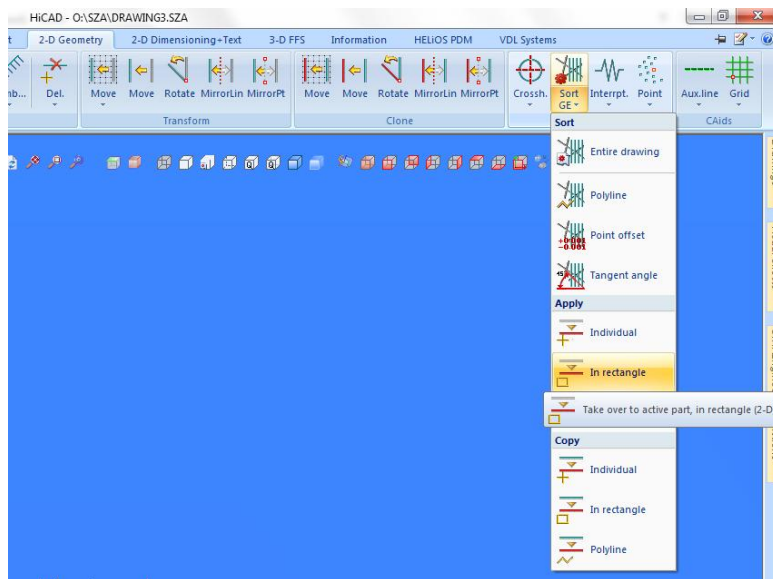

New structure in the ICN:

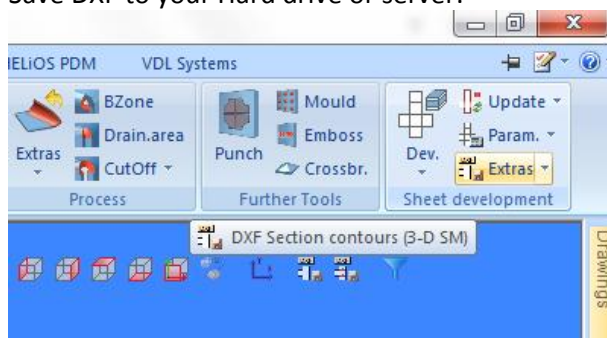

Cut and paste all the “_TEXT” to “Blank annotation”.

Activate again the top level of your development in the ICN.
Take over the text to top level of your development.

Save DXF to your Hard drive or server:

Result:
