

Information

Issue In this Civil 3D 2017 the structures displayed in the profile view are being clipped at the horizontal extents. Included are 2 pictures for comparison, one from 2017 and 2016. Please notice the structures in

2016 are not clipped. All settings are the exact same between the two Civil 3D versions.

Cause

Solution Known issue.

Workaround: Manipulate the Left/Right grid padding values.
