

Autodesk® Product Install Matrix

Most Autodesk applications can operate side by side with each other. In some cases, however, new versions of the software are designed to overwrite existing versions upon installation to maintain compatibility with third-party applications that many Autodesk customers depend upon. The following table was created to help clarify which current Autodesk products can coexist with other current and/or older versions on a single computer.

Installing Autodesk® CAD Overlay® 2002 requires AutoCAD 2002 or an AutoCAD 2002-based desktop. Autodesk CAD Overlay 2002 will run side by side with other installs of Autodesk CAD Overlay 2002 as well as with Autodesk CAD Overlay 2000i.

Notes:

1. Can operate side by side with AutoCAD 2000, AutoCAD 2000i, and AutoCAD 2002-based products.
2. AutoCAD Architectural Desktop 2i requires SP1; AutoCAD Land Development Desktop 2i requires SP2 before installing ADT 3.3.
3. The version of Autodesk Civil Design and Autodesk Survey installed must correspond to the version of the Autodesk Land Desktop.
4. Tested with AutoCAD Land Development Desktop 2, AutoCAD Map 2000 with upgrade to Autodesk Map 5.
5. Tested with AutoCAD Land Development Desktop 2i, AutoCAD Map 2000i with upgrade to Autodesk Map 5.
6. AutoCAD Land Development Desktop 2 requires the T108 patch in order to operate side by side with an AutoCAD 2002-based product.
