

The image shows a screenshot of the AutoCAD software interface. On the left, a 2D drawing is displayed with a dashed red selection box around a white geometric shape (a square with internal lines). A white text box with blue text points to this selection, containing the text: **Auswahl:  
Polygonales  
Ansichtsfenster**. On the right, the Properties palette is open, showing the properties of the selected object. The palette is divided into sections: **Allgemein** (General) and **Verschiedenes** (Miscellaneous). The **Allgemein** section shows properties like Farbe (Red), Layer (0), Linientyp (VonLayer), Linientypfaktor (1), Plotstil (VonFarbe), Linienstärke (VonLayer), and Hyperlink. The **Verschiedenes** section shows properties like Ein (Ja), Zugeschnitten (Ja), Anzeige gesperrt (Nein), **Vorgabefaktor** (1:10), Benutzerspezifischer (0.1), BKS pro Ansichtsfenster (Ja), and Plot ausblenden (Nein). A blue circle highlights the **Vorgabefaktor** property. Three blue arrows point from the selection box to the Properties palette, indicating the relationship between the selection and the displayed properties.
