

DUMPSHX

Converts existing SHX (compiled) files to the equivalent SHP (decompiled) files

Note:

DUMPSHX recognizes all SHX files including Shape files, Big Font files and Unifont files.

DUMPSHX Syntax

- h** Display this message
- d** Uses decimal character codes
- o** Writes output to 'file'

Usage Examples:

To create *simplex.shp* from *simplex.shx*:

```
dumpshx -o simplex.shp simplex.shx
```

To create *mytext.shp* from *txt.shx* using decimal character codes:

```
dumpshx -o simplex.shp simplex.shx
```

Command line: DUMPSHX -o<outfile> <infile> [-d][-h<display message>]

Files: dumpshx.exe
